

## 1.5A,4.5V-20V Input,1MHz Synchronous Step-Down Converter

### General Description

PN2015A develops high efficiency synchronous step-down DC-DC converter capable of delivering 1.5A load current. PN2015A operates over a wide input voltage range from 4.5V to 20V and integrates main switch and synchronous switch with very low  $R_{DS(ON)}$  to minimize the conduction loss. PN2015A adopts the instant PWM architecture to achieve fast transient responses for high step down applications and high efficiency at light loads. In addition, it operates at pseudo-constant frequency of 1MHz under heavy load conditions to minimize the size of inductor and capacitor.

### Applications

- Set Top Box
- Portable TV
- Access Point Router
- DSL Modem
- LCD TV

### Features

- Low  $R_{DS(ON)}$  for internal switches (top/bottom): 90/70 mΩ
- 4.5-20V input voltage range
- 1.5A load current capability
- Instant PWM architecture to achieve fast transient responses
- Internal softstart limits the inrush current
- 2% 0.6V reference
- Compact package: SOT-23-6L

### Package

### Typical Application Circuit
